

## Cloud Migration Case Study

### Slum Rehabilitation Authority's Success Story with Mithi SkyConnect

## About Slum Rehabilitation Authority (SRA)

The Slum Rehabilitation Authority was set up by the Government of Maharashtra in 1995, with the objective of providing a single window clearance for all types of approvals that are required for projects ranging from co-operative societies, certification of eligibility of slum-dwellers, updating of property cards (PR cards) etc. The main functions of SRA include survey and review of existing position regarding Slum areas in greater Mumbai along with the formulation & implementation of rehabilitation schemes for slum areas.

### THE CHALLENGE

Our previous on-premise email solution was causing a lot of Spam to enter our systems. In addition, we also received malware, infecting our systems, causing malware to be sent out from our server. This resulted in the blocking of our IP, resulting in a hiccup in the flow of communication between our peers. As we get a lot of invites & collaboration opportunities from all over the world, we were in desperate need to get our email up & running.

### THE SOLUTION

Mithi SkyConnect has been a blessing in disguise, successfully keeping all our incoming and outgoing mail spam, malware and ransomware free. In addition, being on cloud, it was surprisingly easy to deploy in a very short span of time. Using Mithi SkyConnect, we are also able to store all our data within AWS Centers in India, helping us stay compliant with the Government laws and regulations around data protection.

### THE BENEFITS

#### Business Continuity

Robust cloud email solution eliminates downtime assuring business continuity.

#### Zero Maintenance

Being on cloud, our IT team has to no longer worry about hardware maintenance or software upgrades.

#### Data Compliance

Data is stored on AWS centres within India, assuring compliance with Government Regulations.

### ABOUT MITHI SOFTWARE TECHNOLOGIES AND AWS

Mithi's collaboration platforms, give you access to secure, dependable, and an always connected collaboration environment, helping you reduce operational costs and gain productivity. Giving your business what we call the 'Collaboration Advantage'.

Amazon Web Services (AWS) provides a broad offering of secure, cost-effective, and scalable cloud services designed to help you achieve greater operational efficiency and seamlessly scale your business.
